

State Track & Field Champions – Cincinnati Boys

Purpose

The purpose of this document is to provide to those interested a historical record of the individual and relay event winners from the Ohio High School Athletic Association state track and field championships. To provide such provides both substance and context of the participation of those individuals who have reached the pinnacle of the sport at the high school level within the state of Ohio high school athletics. It is to them, their parents and relatives, their respective coaches, and to the general public at large that this document is dedicated.

History

While the OHSAA championships have been held since 1908, it is believed that participation by Cincinnati-area schools did not come about till approximately 1923. The reason as to the non-participation in the state tournament is unknown to date. What is known is that a regular end-of-season meet was held amongst Cincinnati-area schools for some time before the Cincinnati schools started appearing at the state meet. Frequently, those meets were held at Carson Field, now known as UC's Nippert Stadium. The participation in that meet may have led to a delay by school administrators in entering the state tournament?

Regarding the state tournament, a number of events held in the early years of the championships, and some in later years, are no longer held under the current meet format. The list of those particular events and of Cincinnati-area winners has been preserved within the document. Now defunct events are shown in *italics*.

Resources

These lists and the information contained herein were compiled from both OHSAA state track and field programs and from newspaper accounts (*Cincinnati Enquirer*, *Cincinnati Post*). All of the information contained can be confirmed through historical research.

Conversion Equivalents

12 inches = 1 foot = 0.3048 meters (exact definition)

100 meters = 109 yards, 13 inches

110 meters = 120 yards, 10 ³/₄ inches

1600 meters = 0.99419 miles = 1749 yards, 28.12 inches

General Notes

- School names have been reproduced as they were recognized as they appeared official state programs during the year of performance.
- The championships converted from yards to meters in 1980 with the conversion of OSU's conversion to an internationally-formatted track facility.
- All times shown having 1/100 seconds denoted are automatic timing (FAT). Those performances, primarily those prior to 1981, denoted to 1/10 seconds are manual or semi-automatic timing (MT).
- Wind-legal performances are those having an average sustaining wind in favor of the athlete of 2.0 meters per second (mps) or less. Such readings are necessary to the following
 - Current Events - 100m, 200m, 100mH, 110mH, Long Jump
 - Retired Events - 180yd LH, 200yd LH, 220yd LH
- Statistics shown in **RED** are believed to be the correct information, but further research is needed to verify such information. All information shown in black type is correct based on available information.
- Events/Results shown *ITALICS* are retired events.

1 - The distance of this race differs from information in the 2011 OHSAA meet program, but is taken from the 1936 Cincinnati Enquirer archives. It is believed that the current information provided in the OHSAA meet program is incorrect in that both classes competed over the 200 yard LH during the years 1936 and 1937. The state meet program differs in that it lists Class B not making the change to 200 yard LH until the year 1937, but not 1936. However, the 23.2 second meet record performance, improving upon the year-old record of 25.9 seconds by John's brother, Joe, by some 2.6 seconds strongly suggests that the distance was also 200 yards in 1936. In 1938, both classes reverted back to the 220 yard LH.
